

Office of Materials and Research  
Qualified Products List

Following is a list of <b>Silicone Sealants</b> that have proven their capability of meeting the requirements of Standard Specification Sub-section 833.2.06 including a two year field evaluation. The manufacturers of these products have furnished all documentation required by SOP-17, “Acceptance of Miscellaneous Construction Items.” The manufacturer of each sealant shall furnish certified test results on each lot of sealant. Even though a sealant has been evaluated and approved, failure to perform adequately in actual use shall be just cause for rejection. These silicone joint sealants shall be used in strict conformance with the requirements of Section 442 or 461, whichever is applicable.		<b>Qualified Products List 66</b>  <b>Silicone Joint Sealants</b>		<b>Physical / Chemical Branch</b> 15 Kennedy Dr. Forest Park, GA 30297  Office Phone: 404-363-7606 Office Fax: 404-363-7684			
Note #1:	Type A:	A low modulus non-sag silicone for use in sealing horizontal and vertical joints in Portland cement concrete pavements and bridges. <b>Tooling is required.</b>					
	Type B:	A very low modulus <u>self-leveling</u> silicone used to seal horizontal joints in Portland cement concrete pavements and bridges. <b>Tooling is not normally required.</b>					
	Type C:	An ultra low modulus <u>self-leveling</u> silicone used to seal horizontal joints in Portland cement concrete pavements and bridges. It can also be used to seal the joints between Portland cement concrete pavement and asphaltic concrete shoulders. <b>Tooling is not normally required.</b>					
	Type D:	A two part, ultra low modulus, <u>self-leveling</u> , rapid cure silicone, used to seal horizontal joints in Portland cement concrete pavements and bridges. It can also be used to seal joints between Portland cement concrete pavement and asphaltic concrete shoulders. <b>Tooling is not required.</b>					
Note #2:	Since Types B, C, and D are self-leveling, provision must be made to use a compatible Type A silicone in the vertical sections of bridge joints.						
Note #3	All Trade Names are Registered Trademarks of the appropriate company.
